

## **Certification and Assessment with Body Soul Spirit**

It is important to acknowledge the personal and spiritual development work that clients and students undertake at Body Soul Spirit Education. One of the best things about completing any pre-accredited course with Body Soul Spirit is that your hard work is valued and properly acknowledged. Once you have finished your course, you are in a position to apply for your course certificate. If you would like to receive your certificate, then all you need to do is work through the course, complete the course assessment tasks, and then forward them for assessment.

If you are assessed as competent, you will receive your printable pdf certificate via email right away. If at first you are not assessed as competent, you will be offered the appropriate guidance to make the required adjustments so that you may present your task again until it is assessed as competent. When you are assessed as competent, you will then receive your printable pdf certificate via email.

Successful completion of a Body Soul Spirit course, workshop or training program means you have built yourself a solid foundation for your ongoing spiritual development. You have demonstrated a level of competency in self-understanding that is beyond average.

At Body Soul Spirit Education, there are people who work as IICT Soul Purpose Facilitators. (IICT? International Institute of Complimentary Therapists) They come from a huge variety of backgrounds with exceptional experience in their chosen fields. They have trained extensively as Soul Purpose Facilitators with Body Soul Spirit Education that includes rigorous, specialised study, preparation, and professional field work. Those featured on [bodysoulsprite.com.au](http://bodysoulsprite.com.au) have been involved in the industry for a minimum of ten years. Located throughout Australia, they are always happy to chat with you.

I am very excited about Body Soul Spirit Education's pre-accredited training courses, and most of all, that I am able to share something so valuable and easily applied to everyday life. This rich information has the potential to empower you physically, emotionally, mentally and of course spiritually. If you've ever asked 'what is my purpose in life?' then by studying with Body Soul Spirit you will discover this and a great deal more.

Body Soul Spirit's training by correspondence courses, most of which include 4 hours of phone support, can be studied at your own pace. Each course includes a comprehensive e-manual - with the exception of 'Introduction to Your Soul Purpose Course', which is a correspondence only but comes to you as a hardcopy manual - plenty of check-lists and quizzes are also included to help you apply what you have learned. Body Soul Spirit pre-accredited training is the ideal preliminary course of study that eases your journey as you pursue further sessions, workshops or IICT (International Institute of Complimentary Therapists) accredited Soul Purpose Facilitator Training with Body Soul Spirit Education.

Successful completion of these courses will really help you to make the most of the time you spend working with a Soul Purpose Facilitator. It will also save you a vast amount of time and energy when you train as a Soul Purpose Facilitator.

If you have any questions about the courses, or you would like to train as a facilitator, receive a reading, attend a session, workshop or training with me, then please contact me in Australia on 0438 018 268 or email [gail@bodysoulsprite.com.au](mailto:gail@bodysoulsprite.com.au) .

To enhance your study experience, be sure to take advantage of the free learning videos (due March 2011) available on [www.bodysoulsprite.com.au](http://www.bodysoulsprite.com.au) too!

Thank you for exploring this information. Wishing you satisfaction and the best of health and wellbeing,

Gail Goodwin. 2011
