Here are 10 Reasons to attend the Soul Purpose Facilitator Training Now!

1. It's a profound, life changing program.
2. We put a heavy emphasis on finding your purpose at a soul level.
3. In addition to content, you are taught how to make money as a facilitator *and* the business of facilitation (Gail has taught Business Management at Swinburne University).
4. We have proven workbook processes and tools for professional application. Gail has taught this material since 1999.

5. It's an IICT accredited training program (it is accredited with the International Institute of Complimentary Therapists)
6. Get IICT accreditation in only 1 year and even less with the Intensive Training Program, because it's a content-specific program.
7. You get a free, targeted internet presence - You have the option to take up a free Body Soul Spirit website profile to help you market yourself and gain clients where ever you are in the world.
8. Take it now with the founder and creator of the work (me). This won't always be the case.
9. If you take part in the research (takes 5 minutes) and take advantage of the up front payment option (another \$400 saving), you can then save yourself up to \$800.
10. You can create an additional income stream for yourself as a facilitator.
